

SHIFT IT, LIFT IT, CLIMB IT...
all from one position

Fast. Efficient. Safe.

The VRS Squirrel Series brings the safety and efficiency of the VRS platform adjustability right down to the office, home, apartment building... or any other relatively confined space.

- ✓ Four deck heights from as low as 740mm, up to 1440mm
- ✓ Walk it from room to room...straight through the door!
- ✓ The correct, safe handrail height at each level

SQUIRREL

PORTABLE HEIGHT
ADJUSTABLE STEP
PLATFORM

NIMBLE, AGILE, QUICK

Whether you have a busy schedule involving many contracts on different sites, or you load (and climb onto) trucks with various deck heights, or pick from multi-height shelves...the Squirrel will give you a safe platform at every variable...and fast.

Safety first! Safety bar at the rear of the platform stays out of the way for climbing on/off the deck and clips on easily behind the user

Easy pull trigger rod gives a positive lock at each of the 4 deck heights, with a confirming 'thunk'

Easy loading with strong 'tie-down' points

Quick to shift around the site with the integral carry handles. And it fits into a lift, goes up stairs and through doors etc - no sweat!

Feel safe - the unique 'flip feet' provide extra stability when the deck is in use, but flip conveniently out of the way when you need to get through a narrow gap

Simple to move... just like a sack barrow!

No more leaning over the front of a wobbly ladder! Work up against or side on to a wall

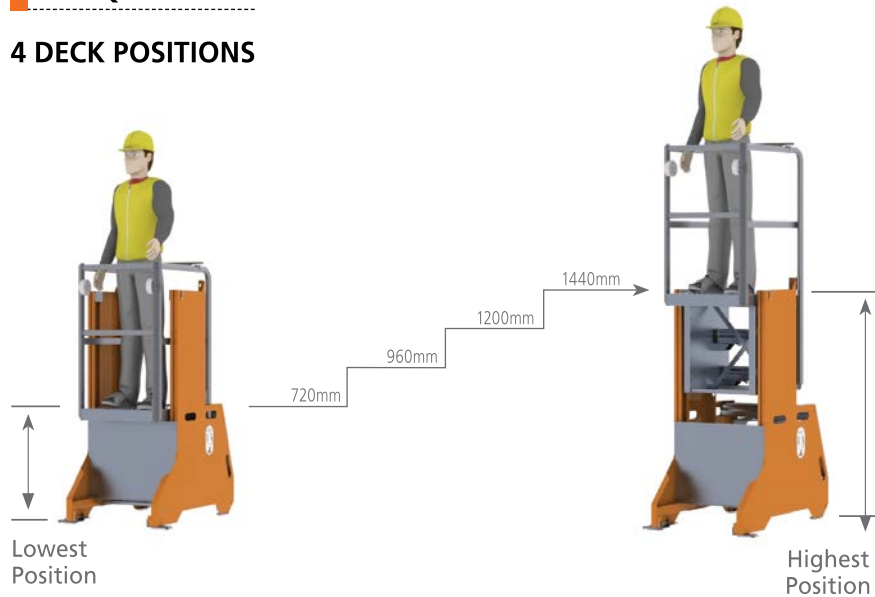

Very light... and very strong thanks to the effective design and the predominantly aluminium structure. And just like the Monkey... check out those super tough treads.
